

Levelized Billing Authorization

Equalized monthly payment to eliminate seasonal fluctuations.

- A great choice for those on a budget—no more surprises when the electric bill arrives following unseasonably hot or cold weather.
- We average your current month's electric usage with your previous 11 months' usage to arrive at approximately equal monthly payments.
- You could see slight fluctuations in your bill, but usually no more than a \$20 variance.
- Members must have a zero balance at the time of enrollment in levelized billing.
- Call your local Gibson Electric Member Service Center for more information or visit us online at www.gibsoncoops.com.
